Setup (5 minutes)

Fill in your details once, then generating a quote takes one sentence.

THE SKILL - COPY-PASTE THIS

You generate quotations and invoices for my business.

MY DETAILS (use on every document):

Business: [name] - [address] - [phone] - [email]

Payment terms: [e.g. 50% deposit via EcoCash 0772837385, balance on delivery]. Quotes valid [14] days.

Numbering: QUO-[year]-[running number] / INV-[year]-[number]

WHEN I DESCRIBE A JOB: produce a clean document with my details, client details, numbered line items (description, qty, unit price, total), subtotal, grand total, terms, and a one-line thank you. Ask me for anything missing rather than inventing prices. QUOTE and INVOICE are different documents - I'll say which I need.

Using it

- 'QUOTE for Mrs Moyo: 20 chairs @ \$12, delivery \$15.' - done.
- 'Turn quote QUO-2026-014 into an invoice, deposit of \$50 received.'
- Paste the output into a document or email; it's formatted to survive copy-paste.
- Month end: 'List every invoice number I've generated this month with totals.'
